UNDER-RUN AMR

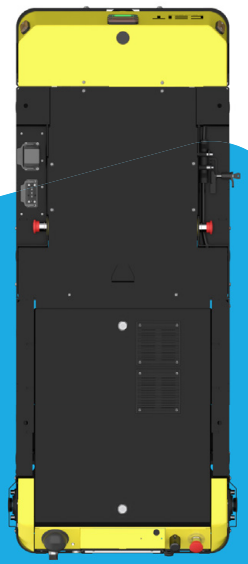

AUTOMATIC CHARGING

5G TECHNOLOGY

CE CERTIFIED

A basic under-run AMR offering the option of creating applications for flexible assembly lines with long-term usability even in the event of a change of the manufactured product or layout of the production line for continuous operation.

A one-way AMR with 180° safety, it has the option of an electricity supply for peripherals and a high degree of variability thanks to the integration of various modules, as well as the automatic connection and disconnection of carts.

SPECIFICATION

Type	Under-run
Navigation	Contour/magnetic
Direction of drive	Forward/with the conditional reversing module also backward
Minimal turning radius	1.3
Speed (m/s)	1
Load capacity (kg)	1,300
Dimensions (L, W, H in mm)	1,565x607x457
Batteries	Traction gel
Charging	Automatic
Control	Manual control, touchscreen
Safety scanners	SICK microScan 180°, SICK S300 180° (optional 2D scanner and 3D camera)

Asseco CEIT AMRs are available with their **own MCS fleet manager with VDA 5050 standard** for guiding and monitoring logistics equipment in real time.

We offer a comprehensive **automatic logistics system, including AMR equipment, our own fleet manager and peripherals.**
