3000A

TRACTOR AGV

AUTOMATIC CONTACT CHARGING

5G TECHNOLOGY

CE CERTIFIED

An advanced, comprehensive smart tow tractor offering flexibility, scalability and a high level of safety and protection.

Its advantage is that it can transport several pallets at a time, rendering the flow of materials more efficient and reducing the cycle time.

SPECIFICATION

Device type	AGV tow tractor
Manipulation	Manual/automatic
Direction of drive	Forward
Load type	Dynamic extensions, dynamic tables, mobile conveyors, peripherals
Maximum load	3,000 kg
Turning radius	1.1 m
Maximum speed	1 m/s
Dimensions	W: 900 mm, L: 1410 mm, H: 1155 mm
Weight	520 kg
Navigation	Contour, laser, magnetic
Manual mode	Manual steering, touchscreen (optional remote control, tablet, smartphone)
Safety scanners	SICK microScan 180°, SICK S300 180° (2D scanner and 3D camera options)
Batteries	Nexsys 12XFC158 (gel traction)

Asseco CEIT AGVs are available with their **own MCS control system** for guiding and monitoring logistics equipment in real time.

We offer a comprehensive **automatic logistics system, including AGV equipment, our own control systems and peripherals.**
