

1500FCB

FORKLIFT AMR

INDUCTIVE CHARGING

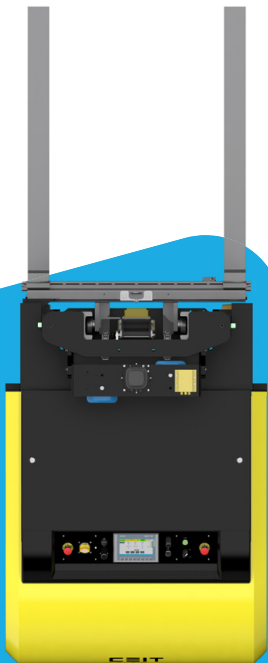

5G TECHNOLOGY

CE CERTIFIED

An autonomous low lift AMR with counterbalance and a lifting height of up to 6 metres. Its high degree of modularity and scalability makes it suitable for use in various production or warehouse premises.

The 1500FCB is ideal for repetitive flows and enables the quick and safe transport of pallets.

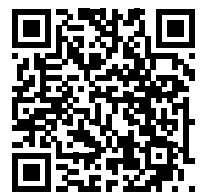

SPECIFICATION

Type	Low lift with counterbalance
Navigation	Contour/laser
Direction of drive	Forward/backward
Minimal turning radius	Depending on the pallet
Speed [m/s]	Forward: 2.0/backward: 0.5
Load capacity [kg]	1,500
Lift	Hydraulic
Lift [mm]	4,000/6,000
Dimensions [L, W, H in mm]	3,645x1,220x3,254
Forks	Forged
Max. pallet size [L, W, H in mm]	Length 1,500
Manipulation	Via static part/from the ground
Batteries	Li-FePO4
Charging	Inductive/automatic
Control	Manual control, touchscreen, steering handle
Safety scanners	Safety PLC, safety laser

Asseco CEIT AMRs are available with their **own MCS fleet manager with VDA 5050 standard** for guiding and monitoring logistics equipment in real time.

We offer a comprehensive **automatic logistics system, including AMR equipment, our own fleet manager and peripherals.**
